

Ready for Anything: Practical First Aid and Emergency Response

BGU International
Summer 2026

Program Content

The course combines classroom lectures, hands-on workshops, and immersive simulations. Key topics include:

- Emergency Medicine: Patient assessment, airway management, trauma care, and pharmacology.
- Tactical Medicine: TCCC principles, care under fire, and evacuation techniques.
- Disaster Response: Mass casualty triage.
- Simulation Training: Realistic scenarios like active shooter events and medical emergencies.

Ben-Gurion University of the Negev

Located in Be'er-Sheva, Israel, Ben-Gurion University is at the heart of a vibrant, diverse region that uniquely prepares students for emergency and tactical medicine. Surrounded by desert landscapes, thriving urban centers, and a multicultural population, our setting provides real-world insights into managing medical challenges in complex and high-pressure environments.

At a Glance
