US Antitrust Law under *Trump 2.0* *A first appraisal*

The result of the US elections gives rise to many questions about the future directions of US policy. This includes antitrust law and related legal areas.

What are the implications of the US election in terms of US antitrust law and policy?

- ⇒ Antitrust law **track record** of Trump 1.0. and its implications for Trump 2.0?
- ⇒ **Ongoing proceedings** against Big Tech?
- ⇒ Current **leadership positions** in DoJ and FTC?
- ⇒ FTC **regulatory efforts** (e.g. non-competes & junk fees)?
- ⇒ Reorientation of **merger control** policy?
- ⇒ Federal or state-level **legislation** for the digital sector (e.g. federal data protection law)?
- ⇒ International **cooperation/coordination** in antitrust policy and enforcement?
