## **Regulation governing qualifications for entry and admission for the consecutive Master's degree programme „Applied Computer Science“**

### **I. Scope**

#### **§ 1 Scope**

- (1) These regulations govern entry and admission for the consecutive Master's degree programme “Applied Computer Science”.
- (2) The university conducts an autonomous procedure in accordance with the following provisions to determine the qualifications for entry for all university places to be awarded in the degree programme „Applied Computer Science“.
- (3) <sup>1</sup>If the number of applicants who meet the qualifications for entry exceeds the available university places, the university shall award the places based on the results of its own selection procedure. <sup>2</sup>If the number of applicants who meet the qualifications for entry falls short of the available places, no selection procedure shall take place.

## II. Authorisation for admission

### § 2 Qualifications for entry

(1) <sup>1</sup>It is a requirement for entrance to the Master's degree programme that the applicant possesses the professional competence. <sup>2</sup>Candidates shall be deemed to possess the relevant professional competence if they have completed a technically relevant course of studies to Bachelor's degree level with a standard course length of at least six semesters and a total of at least 180 ECTS credits or an equivalent degree programme in Applied Computer Science or in a closely related subject area in accordance with section 3 at a German university or a university in one of the Bologna signatory states. <sup>3</sup>Final examinations which have been passed in a country outside the Bologna signatory states require the determination of equivalence with the qualifications in accordance with sentence 1, taking into account the proposals of the Central Office for Foreign Education (ZAB) at the Office of the Standing Conference of the Ministers of Education and Cultural Affairs of the Federal States in the Federal Republic of Germany (KMK) for the recognition and assessment of foreign certificates of academic qualification, which can be found under the URL <http://anabin.kmk.org>. <sup>4</sup>The grades of the foreign certificates of academic qualification must be converted to the German grading system.

(2) <sup>1</sup>Notwithstanding section 1, eligibility shall be considered proven by applicants who have not yet completed a course of studies at the time of application, but have acquired at least 150 credits in a relevant Bachelor's degree programme in accordance with section 3, or in an equivalent degree programme. <sup>2</sup>The average grade calculated from the previous examination components is also taken into consideration in the selection procedure in place of the Bachelor grade or the grade of an equivalent certificate of academic qualification, irrespective of whether the result of the Bachelor's examination deviates from this.

(3) <sup>1</sup>The decision as to whether a preliminary course of studies is relevant within the meaning of sections 1 and 2 shall be made by the selection committee. <sup>2</sup>It is a requirement for the technical relevance of the preliminary course of studies that proof is provided of at least 90 credits in computer science, applied computer science, mathematical foundations and scientific-technical foundations. <sup>3</sup>At least 60 credits in computer science and applied computer science and at least 15 credits in mathematical and scientific-technical foundations must be proven. <sup>4</sup>If fewer persons apply who fulfil all admission requirements according to sentences 2 and 3 than there are places available, the selection committee may require the completion of pending examination components in accordance with sentences 2 and 3 within two semesters for assessing the technical relevance; in this case, determination of technical relevance and admission are conditional on proof of the pending examination components, which should be submitted within two semesters from the time of enrolment at the university (closing date). <sup>5</sup>If

proof of the pending examination components is not submitted by the deadline, assessment of the relevance of the subject and any letter of admission based on this shall become invalid.

<sup>6</sup>Assessment of technical relevance shall not be possible if the components in accordance with sentences 2 and 3 that have not yet been performed have a rating of more than 15 credits.

(4) In deviation from section 3, foreign nationals and stateless persons with a recognised prior education certificate who are neither equivalent to Germans according to legal regulations nor nationals of another member state of the European Union or another state party to the Agreement on the European Economic Area nor have acquired their Bachelor's degree or an equivalent degree at a German higher education institution or at a higher education institution of another member state of the European Union or another state party to the Agreement on the European Economic Area shall additionally prove the subject-related relevance of their prior studies by successfully completing an aptitude test in accordance with § 3.

(5) <sup>1</sup>Applicants whose native language is not German and who neither meet a German university entrance qualification nor have acquired their Bachelor's degree or an equivalent degree at a German university must demonstrate sufficient proficiency in the German language. <sup>2</sup>Proof of this should be demonstrated by a test with an average grade point of DSH-2 in accordance with the examination regulation for the German language test for university admission of foreign prospective students (DSH). <sup>3</sup>The obligation to take the test need not be met by applicants who are exempted from the German language test for admission to colleges and universities in accordance with the examination regulations for the German language test for the admission of foreign students to colleges and universities (DSH) at the University of Göttingen; this applies in particular to those applicants who have proven the required German language skills on the basis of successful completion of the Test of German as a Foreign Language (TestDaF) with at least four times TestDaF grade level 4 (TDN 4) or the German examination module of the assessment test during the preparatory course.

(6) <sup>1</sup>Applicants whose native language is not English must show adequate English language skills. <sup>2</sup>Adequate knowledge of English must be demonstrated with standardised or accredited certificates at minimum B2 level or higher in accordance with the Common European Framework of Reference for Languages (CEFR). <sup>3</sup>The following in particular shall serve as proof:

- b) NULTE certificate: min. level B2;
- c) Cambridge English Scale: min. 160 points;
- d) International English Language Testing System (IELTS Academic): min. band 5.5;
- e) Test of English as a Foreign Language, internet-based test (TOEFL iBT): min. 81 points;
- f) Global Scale of English (Pearson Academic): min. 59 points.

<sup>4</sup>Successful completion of tests (a-f) may not have taken place more than two years before receipt of the application for admission. <sup>5</sup>At least one year of residence in an English-speaking country for the purpose of study or work, or an average grade of at least 8 points in the subject of English within the two school years before achieving the university entrance qualification, also constitutes proof of adequate English language proficiency.

(7) <sup>1</sup>Applicants whose native language is English or who possess very good English-language skills are not required to provide proof in accordance with sections 5 and 6. <sup>2</sup>Adequate knowledge of English must be demonstrated with standardised or accredited certificates at minimum C1 level or higher in accordance with the Common European Framework of Reference for Languages (CEFR). <sup>3</sup>The following in particular shall serve as proof:

- a) UNlcert®: min. certificate UNlcert® III;
- b) NULTE certificate: min. level C1;
- c) Cambridge English Scale: min. 180 points;
- d) „International English Language Testing System” (IELTS Academic): min. band 6.5;
- e) „Test of English as a Foreign Language, internet-based test” (TOEFL iBT): min. 95 points;
- f) Global Scale of English (Pearson Academic): min. 76 points.

<sup>4</sup>Successful completion of tests (a-f) may not have taken place more than two years before receipt of the application for admission. <sup>5</sup>At least two years of residence in an English-speaking country for the purpose of study or work within the three years before receipt of the application for admission, or successful degree earned in a degree programme in the English language lasting at least two years, also constitute proof of very good English language proficiency.

(8) <sup>1</sup>In all other respects, the general provisions of the regulation applying to enrolment at the university remain unaffected. <sup>2</sup>Enrolment of applicants who are provisionally authorised for admission in accordance with section 2 is conditional upon submission of proof of successful completion of the Bachelor’s course of studies or an equivalent course of studies. <sup>3</sup>The proof must be provided by the end of 15/11 for enrolment in the winter semester and by the end of 15/05 for enrolment in the summer semester. <sup>4</sup>Provided the Dean determines, on the basis of the periods of studies so far, in particular the present examination components, that the applicant will attain the degree at the latest by the end of the first semester of the Master’s degree programme, the deadline in accordance with sentence 3 shall be extended to the end of 31/03 for enrolment for a winter semester and to the end of 30/09 for enrolment for a summer semester. This determination is only admissible provided

- a) only a research-related internship and the final thesis are missing as examination achievements or
- b) the thesis has already been submitted to the university and the amount of the examination components that are still missing does not exceed ten credits.

### **§ 3 Aptitude test**

c) The aptitude test is conducted as a multiple-choice or multiple-select test. For the electronically presented multiple-choice or multiple-select tasks (MC tasks), the applicant must indicate which of the answers presented in the MC tasks he or she considers to be correct or incorrect. At least four answers must be given in an MC task.

d) An applicant who fails to take the aptitude test within the period specified in letter a) without good cause shall be excluded from the further procedure. An excluded applicant is entitled to participate again in the next possible aptitude test.

(4) <sup>1</sup>The criterion for the degree of suitability is the total number of MC tasks answered correctly or the total number of points achieved. <sup>2</sup>Satisfactory performance is deemed to have been achieved if the applicant has answered at least 60 percent of the MC tasks correctly or has achieved at least 60 percent of the points or if the number of MC tasks answered correctly by the applicant or the number of points achieved by the applicant is not more than 10 percent below the average performance of the participants. <sup>3</sup>The applicant shall be notified of the result of the aptitude test in text form.
